Duplo[®] Dynamic Bookletmaker

DBM-120 / DBM-120T

Automatic stapler / folder
designed for mid-to-low
booklet production.

Duplo® DBM-120 / 120T

Dynamic Bookletmaker

The versatile DBM-120 can be used either as a stand-alone bookletmaker or as an in-line accessory with a collator, printer or copier. This automatic-setting machine is pre-programmed for the most popular bookletmaking applications, and it offers five additional memory settings for odd sized paper. Side guides, head stops and staple/fold position stoppers all adjust automatically, enabling an operator to change from one job to the next in just seconds. It is designed to complete up to 2,400 sets per hour. A fore-edged trimmer, the DBM-120T, is available for the DBM-120 bookletmaker. See below;

Features:

- Automatic easy make-ready
- 14 second set-up
- High productivity: up to 2,400 booklets/hr
- 10 pre-set sizes, 2 custom sizes
- Wide range of stocks
- From A6 to A4 booklets
- Optional fore-edge trimmer: DBM-120T

Optional Extras:

- DFC Cabinet (High)
- DFC Cabinet (Low)
- Cabinet for DBM-120
- Cabinet for DBM-120T
- PS Base (used when DC-SP or DC-S4 connected)
