

OPTICAL MARK RECOGNITION (OMR)

Using a sequence of marks, the DS-62 is able to securely process sets of documents with a varying number of pages to ensure they reach the correct recipient.

INSERT'N METER

Automate your total mail flow by connecting the DS-62 to a Neopost postage metering system.

PRINTMACHINE SOFTWARE - ENRICH YOUR DOCUMENTS

Neopost's PrintMachine software helps you to add OMR-marks to your documents. A whole new world of mail creation possibilities will be unfolded.

ENVELOPE OUTPUT OPTIMISATION

Choose the best way to collect your filled envelopes and optimise space, ergonomics and productivity.

CUSTOMER AND AFTER SALES SERVICE

GBC ensures the best customer and after sales service. We wouldn't be a world leader if we didn't care about you, would we?

WHY CHOOSE GBC

For over 50 years GBC has been perfecting mail processing, binding, lamination and shredding systems for commercial, business, education, government and home office applications. GBC products are marketed in over 115 countries and has offices in every capital city in Australia.

The quiet Folder Inserter that handles all mail

neopost

DS-62

YOUR OFFICE ASSISTANT

Remember the time when you had to put your mail together by hand? Manually collating, folding, inserting, sealing and stacking your mail pieces: a time-consuming business.

But there is a better way: the DS-62 folder-inserter.

The DS-62 handles all your mail automatically, saving you time and money. It produces a professional looking mail piece and it is as easy to use as a photocopier.

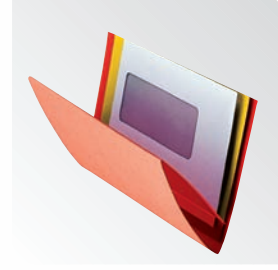

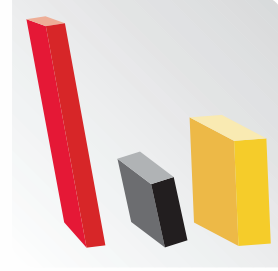

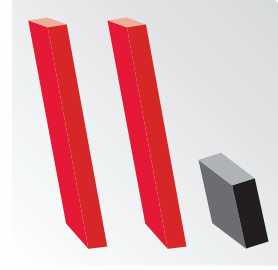

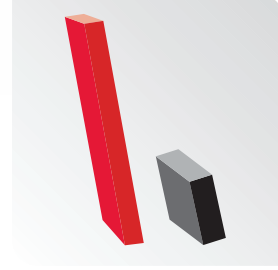

EASY TO USE - AS SIMPLE AS A PHOTOCOPIER
LOAD'N GO - NO SPECIAL SKILLS REQUIRED
PROFESSIONAL LOOKING MAIL PIECE
LOW NOISE LEVEL - FOR ANY OFFICE ENVIRONMENT
FULLY ACCESSIBLE - ERGONOMIC DESIGN

WIDE RANGE OF APPLICATIONS

Does your mail vary in paper size, paper quality etc.? Does it consist of invoices, cards or reply envelopes? The DS-62 does it all for you.

The unique flexFeed feeders enable you to process any document size. Do you have inserts that are up to A5 size? Use the Short Feeder for optimised accessibility.

PROFESSIONAL LOOKING MAIL PIECE

Effective communication starts with a professional looking mail piece. That is why the DS-62 collates and assembles all documents before folding them. The result: the recipient opens the envelope and all the documents are presented together, always in the right order.

POWERFOLD5

With powerFold5 you can fold up to 5 pages in tri-fold, crisply and silently.

LOAD'N GO

Everybody can use the DS-62. No need for skilled operators thanks to load'n Go. Just load documents and envelopes 'n press the button to Go! The DS-62 will adjust all settings automatically and even save them in the memory for instant recall. Regular jobs? Just run load'n Go and store the settings in one of the 9 available jobs.

FITS IN EVERY OFFICE ENVIRONMENT

Low noise level, great flexibility, compactness and matchless ease-of-use: these features make the DS-62 fit in any office environment.

DAILY MAIL

The Daily Mail mode offers to process up to 5 sheets fed by hand, stapled or unstapled.

SECURE PROCESSING

To ensure that every recipient gets the correct mail piece, Neopost's electro-mechanical thickness detection protects against double feeding. It is insensitive to dust, and works with toner or coloured paper. The DS-62 measures the thickness of every document from each feeder via secure'n Feed electro-mechanically.
